

DAY 5—6th Jan

Tribal Drums

The CEBS 12th National Campers joined 9000 other splashaholics at Wet 'N' Wild for a day of wild fun in the blue aqua. The fluid motion surrounding our CEBS seemed to inspire large appetites for lunch at which steaks as big as Frisbees were consumed by CEBS knee high to grasshoppers. This scene prompted Garry Allen to make the seemingly innocent comment, "Well! He has big pants to fill!!", which turned many heads in his direction expecting a bee-line to the dunnies!! *Alan Victor*

Treasure Clues #5

Bearing and distance from treasure to point

1. **Excalibur (sloping post in dam) 031° 269m**
2. **Golden Arch Tree (tree with branches that make a large M) 143° 400m**
3. **Ned Kelly stump (stump that looks like Ned Kelly in armour) 219° 78m**

On Sunday, all the CEBS people went to Wet 'N' Wild. It was great fun! Shannon and I went on the Terror Canyon II, the wave pool, Mammoth Falls, Key Largo Lagoon, Speed Coaster, Buccaneer Bay, Calypso Beach and we went on a few other rides, but their would be too many to mention. We all had a good time but my favourite ride was the Mammoth Falls. Basically, I went on all the rides with Shannon. Right now, we just passed the Warner Bros Movie World and people are singing from a book with 51 songs. Hopefully we will be back home so I can see Pip's horses. One of her horses is named Goldie. I don't think she'd bring all 13 horses. *By Tamora Harkness*

By 6pm, at Wet 'N' Wild, those on the 51 seater bus were starting to see RED!!!!

Yesterday we went to Wet 'N' Wild water park. My favourite slide was the Super 8 Aqua Racer where I came in order, 4th, 2nd, 6th and the Speedcoaster where I went with Jake. I also liked the wave machine. *By Alex Balson from Gwyala*
